Virg,  
Thanks for sharing this. I copied you on my email to wetlands and water enforcement programs.  
Ken

Ken, Please see below email. Should NEPAIS forward this on to R5 Water Enforcement and Compliance Branch folks and/or Wetlands and Watersheds Branch folks for answers to Region 3's questions? Please advise. Thank you. Virginia

Hi Virginia --

The NEPA group here in Region 3 has been reading a bit about the Rover pipeline drilling mud spills and subsequent HDD stoppages, as well as the company's failure to control stormwater runoff at construction sites. This recent article in E&E news has provided us with some context: <https://www.eenews.net/energywire/2017/05/31/stories/1060055323>

## PIPELINES: FERC rejects Rover construction restart

[www.eenews.net](http://www.eenews.net)

Federal energy regulators last week denied a request to resume tunneling under waterways in the early construction phase of Energy Transfer Partners' Rover pipeline, a 713-mile, \$4.2 billion project to deliver natural gas to the Midwest and Northeast.
